The similarity index of the submitted manuscript should not exceed 10 % and the percentage of plagiarism should be Zero. CUA follows a Zero tolerance policy towards plagiarism resulting from the use of turnitin application.
2. Similarity index of 10 % is not the right of the students. Even though 10 % is considered as the acceptable level of similarity index, the concerned faculty member, through a detailed analysis of the quality of student work can decide whether to accept or reject the student work.
3. Accepting, rejecting, and resubmitting the student work will be based on the value judgment of the concerned faculty member.
4. It is up to the faculty member's discretion to decide whether to give another chance for the student to resubmit a fresh assignment with a change in its content and style while maintaining the task as it is.
5. Maximum one resubmission chance can be given to the student, which also will be based on the value judgment of the concerned faculty member.

6. If the resubmitted assignment still carries the above acceptable level of 10 % similarity index, the faculty member can use his discretion to either reject the assignment or accept it with a reduction in marks.

### **Verification Process**

1. Students who deny dishonesty must reconstruct or reproduce the suspected work in a way agreeable to and under the supervision of the faculty member to prove that no dishonesty has occurred.
2. If the student declines the opportunity to reconstruct or reproduce the suspected work, the matter is ended, and the faculty may impose one or more of the penalties listed above.
3. Students who produce what constitutes proof that the work is indeed their own, and the faculty still disagrees, the student may then submit a grievance.

### **Grade Appeals**

Students have the right to appeal a final grade of any course by using the following procedure:

- Complete and submit an appeal form to the Registrar within 15 calendar days of final grade posting.
- The Registrar submits the appeal form to the responsible academic department. The responsible department will then respond within seven calendar days.

- The change of grade desired, together with an adequate explanation, will be submitted by the faculty member concerned to the department chair.
- If the Department Chair approves the request for a grade change, the request will be submitted to the Dean.
- If the Dean approves the request, the change of grade will be reported to the Registrar to make the appropriate change on the student record and notify both the student and the faculty member.

NOTE: Forms are available in the departmental offices

10. Copy of the decision is sent to the student.
11. The Registrar places a copy of the report in the student file.
12. The student has the right to appeal within 5 working days from receiving the decision to the Student Affairs Department by filling the Appeal form.

## Academic Integrity

One of the main objectives of CUA is to provide quality undergraduate education. All members of the University community are required to show commitment to this objective, including an obligation to promote the highest standards of integrity in study, instruction, and evaluation.

Dishonesty or unethical behavior has no place at CUA. The integrity of the academic process requires fair and impartial evaluation by the faculty and honest academic conduct and effort by its students.

Therefore, students are expected to conduct themselves at the highest levels of responsibility while fulfilling the requirements of their studies. Similarly, the faculty has a responsibility to make clear to students the evaluation standards that apply and the resources that students may use in a given course.

### Plagiarism

This violation occurs when a student takes the words or ideas of another and uses them as if they were their own. This can happen in three ways:

1. A student copies the words of another person without using quotation marks and without giving reference to the source
2. A student puts the ideas of another person into the student's own words but does not give reference to the source
3. A student duplicates the structure of thought or organization of another person but does not give reference to the source

When students make use of concepts or words from an outside source, whether in the form of a direct quotation or of paraphrase, they must give credit to the original source for each idea by footnote, parenthetical reference, or other bibliographic technique acceptable to the instructor.

### Collusion

Collusion occurs when someone else writes all or any part of a student's paper.

### Cheating

Cheating includes, but is not limited to, a student looking at another's work or using unauthorized materials during a test or written assignment.

Cheating, plagiarizing, or otherwise falsifying the results of study is prohibited. These policies apply not only to examinations, but to all work handed-in, such as papers, reports, solutions to problems, tapes, films, and computer programs, unless authorized by the instructor.

### **Plagiarism Detection Software**

CUA uses TurnItIn plagiarism detection software to verify the originality of student work. This software provides an important first step for instructors in their evaluation of student work. The process for the use of TurnItIn is as follows:

- a. The CUA IT staff conducts initial training on the use of TurnItIn for all faculty members in the computer labs. They are also available to assist with any questions or technical problems encountered.
- b. Instructors provide brief instructions to students on how they use Turnitin to verify the originality of written work.

Faculty members are responsible for providing students with an explanation of the freedom they may exercise in collaboration with other students or in the use of outside sources.

This includes the student's own work prepared and submitted for another course, during group study sessions, and in take-home examinations.

Any doubts on the part of students about what constitutes academic dishonesty should be discussed with and will be resolved by the course instructor.

### **Plagiarism Policy and Procedures**

The aim of this policy is to uphold intellectual property rights by ensuring that works submitted by students are original, and that suitable actions are in place to deal with cases of Plagiarism. If a resolution cannot be reached, the student should contact the registration department in writing to file a formal grade appeal no later than 15 days after the grades announcement as per the academic calendar. If the matter cannot be resolved at the department level, a grade appeal review will be conducted by a University/department committee appointed by the Vice-chancellor. Based on the committee's formal recommendation, the VC may grant or deny the appeal and notify the student and the professor responsible for the course of the decision. If a change of grade is warranted, the VC (or appointed designee) will inform the Registrar of the grade change using an official grade change form.
